

INTACT INVENTORY SYSTEM

Intact Stock Control System

Objective to use Stock Control System

- Intact Stock Control System is to let you have a peace of mind by just auto and instant update of the stocks.
- The system allow you to integrate with Point Of Sales system whereby it is able to capture the data and auto reduce the stocks.
- Make your business running smoothly and effectively whereby from the system, a prompt worker will know when to purchase the materials or products.
- To improve customer's satisfaction by minimizing lost sales from running out of stock.
- To help customer to check the stock availability from online Stock Control System.

Features of Stock Control System

- It is an online and real time system that you will be able to have consolidated view from outlets or warehouses.
- The system allow you to update and maintain customer and supplier's information.
- The system is able to provide a few types of unit measurement with group, category, brand and item.
- The system provides a printout such as Quotation, Sales Order, Delivery Order, Invoice, Cash Sales, Debit Note and Credit Note.
- All relevant stock control Listings are able to print out for reference.
- Able to integrate with Point Of Sales system and Accountings system.

Sample Screen

System Logon

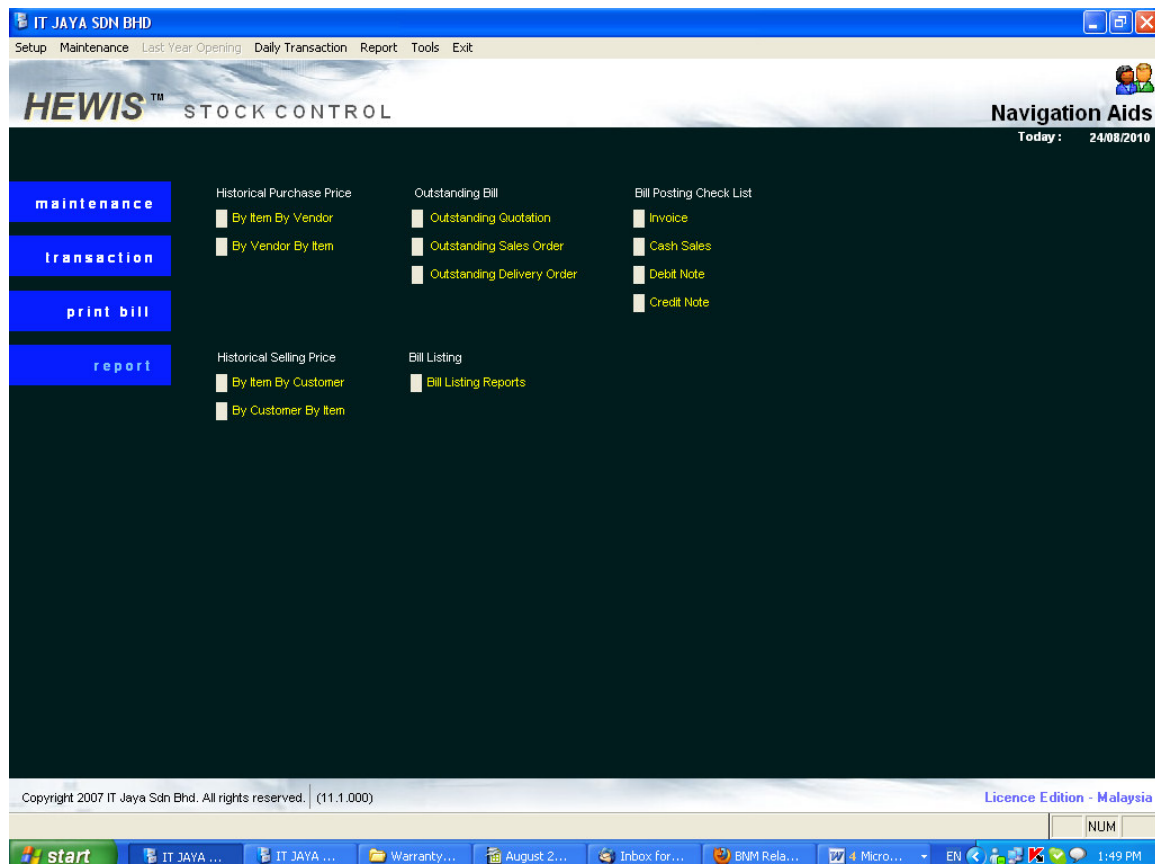

This system builds in with user access authorities. Only authorize user can access the system in order to make the data is secure and prevent the outsiders from simply get access to the system.

The logon screen features a purple header with a user icon and the text "Logon". Below this, on a yellow background, are two input fields labeled "User ID" and "User Password". At the bottom right are two buttons: "Log on" and "Cancel".

System Main Screen

User may either communicate with the system directly with the shortcut menu on the screen or goes to the tool bar menu at the top of the screen after login successfully

The main screen displays the "HEWIS™ STOCK CONTROL" application. It includes a menu bar at the top with options: Setup, Maintenance, Last Year Opening, Daily Transaction, Report, Tools, and Exit. On the left, there is a vertical navigation menu with buttons for "maintenance", "transaction", "print bill", and "report". The main area contains several functional groups:

- Historical Purchase Price:** By Item By Vendor, By Vendor By Item
- Outstanding Bill:** Outstanding Quotation, Outstanding Sales Order, Outstanding Delivery Order
- Bill Posting Check List:** Invoice, Cash Sales, Debit Note, Credit Note
- Historical Selling Price:** By Item By Customer, By Customer By Item
- Bill Listing:** Bill Listing Reports

 The top right corner shows "Navigation Aids" and "Today : 24/08/2010". The bottom status bar includes copyright information (Copyright 2007 IT Jaya Sdn Bhd. All rights reserved. (11.1.000)), the license edition (Licence Edition - Malaysia), and a taskbar with various open applications and the system clock (1:49 PM).
